Introduction

FAQ/ WALKTHROUGHS BY LANZZ

Saga RPG: First Blade is a Japanese-style role playing game for the **Android** and **iOS** phones that draw inspiration from classic games like *Dragon Quest* and *Final Fantasy* series. This game was developed and published by **iDurocher Technology, LLC** in September 25, 2012.
This game is built to be lightweight. The download is tiny, and the game processing is minimal. To accomplish this, the game itself is pretty simple and a bit of an experiment to see if there is still interest in this type of game on the Android platform.
